

*“Waiting for the Miracle to come”: The British tactics to keep Bulgaria neutral (1939-1941).*

Bulgarian neutrality during 1939 and 1940 was a quite irritating situation for the Germans, but a covetable one for the Allies. Great Britain did try to persuade Bulgaria to stay neutral, even when every hope seemed unavailing. It is interesting to see how, but also why the UK made such an effort. The National Archives of the UK were used for the elaboration of this subject.
